

Communities across the country have successfully defeated LNG projects.

Let's work together to protect Ventura County from BHP Billiton's dangerous terminals and tankers. Future generation will thank us.

Attend the hearing on Monday, April 9th and stop BHP's LNG from coming to Oxnard!

Neighbors working together can protect Ventura County from BHP Billiton's dangerous terminals and tankers. **Our kids will thank us.**

3435 Wilshire Blvd., Suite 660, Los Angeles, CA 90010

What's the most important thing standing in the way of BHP's dangerous LNG project coming to the coast of Oxnard?

YOU!

Join us at the **State Lands Commission Hearing**
Monday, April 9th, 2007

Oxnard Performing Arts Center
800 Hobson Way, Oxnard
5:00 p.m (or as soon after that as possible)

The California State Lands Commission is holding a hearing to decide if BHP Billiton's dangerous and dirty LNG terminal can sit off the coast of Ventura County for at least the next 40 years!

"Our children deserve every opportunity to succeed. Oxnard already struggles with the kind of pollution that causes asthma and other health problems. The last thing we need is a project that would be by far the biggest smog producer in the entire county. **This project would harm our children and it must be stopped.**"

—Deborah Meyer-Morris
President, Oxnard
Council PTA

**WHO SAYS
BHP BILLITON'S
POLLUTING LNG
TERMINAL IS A
BAD IDEA?**

"The pollution from BHP Billiton's LNG project will blow onshore and over communities already struggling with dirty air. For the sake of our children and our senior citizens, this project must be stopped."

—Linda Krop
Chief Counsel, Environmental
Defense Center

"This hearing is about the kind of future we want for our children. We can chose pollution and industrialization or we can meet our energy needs with choices that are better, cleaner and safer for our environment. Join me on Monday April 9th and help me speak out against BHP Billiton's LNG project."

—Mark Massara
Director, Sierra Club
Coastal Programs

"BHP Billiton's massive offshore LNG terminal would stand more than 14 stories above the ocean, polluting our air, threatening our safety and coast..."

—Keely and Pierce Brosnan
Malibu Residents

BHP Billiton, a multi-national corporation, has been hiring lobbyists in Sacramento with close connections to decision makers and spending millions to win support for an LNG terminal which would be the largest smog producer in all of Ventura County.

Now the State Lands Commission needs to hear from you!

The Commission is coming to Oxnard on Monday, April 9th to decide whether or not they will allow BHP Billiton's dangerous and dirty LNG project to be built. This is our best opportunity to stand together and stop this massive and polluting project.

Help protect Ventura County's families, businesses and environment. Please join PTA, your city council, business leaders, community groups and conservation organizations and tell the State Lands Commission that **BHP's LNG terminal and tankers are B-A-D for Ventura County!**

Commission Hearing

when: Monday, April 9th, 2007 at 5:00 p.m.
(If you can't be there at 5:00 p.m. or want to be sure there is time for you to speak before the commission, public hearing begins at 10:00 a.m.)

where: Oxnard Performing Arts Center
800 Hobson Way, Oxnard CA 93030
(Between West Wooley Rd. and West 5th St.)

For more information or to RSVP to Owen at 213-387-6528 xt. 211 or email savethecoast@sierraclub.org

Count on me! I understand attendance is critical. I will do my part to protect Ventura County and my community and attend the State Lands Commission Hearing on Monday, April 9th.

I will write a letter or make phone calls to help stop this massive and polluting LNG terminal.

I want to help, but I cannot attend the hearing. Please let me know what I can do on future projects to help save the coast.
